SOLVENCY GOVERNANCE

THE 2X CAP & RE-ACTIVATION RULES

How VisionX Capital Guarantees Permanent Solvency while Preserving 100% of Your Team

200%

The 2X Total Earning Cap

Every active package is capped at 2X its value. A $100 pool can earn up to $200 total from Self ROI, Direct, Level, and Dynamic Matching combined.

100%

Permanent Team Retention

When 2X is reached, you **NEVER lose your team**. Your tree placement, sponsors, downline users, and leg volume remain permanently intact.

🔄

Package Top-Up Cycle

Upon reaching 2X, re-activate with an equal or higher package to immediately restart your earning meter and continue receiving team bonuses.

What Happens if You Delay Re-activation?

If your package hits 2X and you do not top up for 30 days, incoming team ROI & matching salary bonuses for that month are flushed. However, your entire team structure is preserved forever, and commissions resume instantly the moment you re-activate!
